

# Seni Active

created with care  
for people who:

undergo bladder training

want to adjust the absorbency  
level to their needs

lead an active lifestyle

are not comfortable  
wearing a traditional diaper

If you do not know what type of absorbent product to choose for yourself or your loved one, download the SeniControl mobile app. It will help you keep a mobile micturition diary, determine the degree of incontinence and choose an absorbent product depending on your individual needs. Available for Android and IOS users.

SeniControl App

## Adult pant style diapers Seni Active

for people with moderate and heavy urinary incontinence

	<b>Seni Active Normal</b> S, M, L, XL 2, 10, 30 pcs/pack 5.5	rare cases of urinary leakage, which happen during sneezing, laughing or in between using the toilet
	<b>Seni Active</b> S, M, L, XL 10 pcs/pack 6	urinary leakage happens more frequently and is more heavy
	<b>Seni Active Plus</b> S, M, L, XL 10 pcs/pack 7	urinary leakage occurs regularly, is heavy and happens unconsciously

Choosing the right size and the proper level of absorbency of the product is crucial for providing comfort and effective protection.
